DETAILED ACTION

1. Applicants' Preliminary Amendment filed January 14 2002 is acknowledged and entered.
2. Claims 1-9 are cancelled.
3. Claims 10-19 have been added.
4. Claims 10-19 are pending.

Election /Restriction

5. This application contains the following groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1. Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372.

Group I, consisting of claim 1-16, drawn to a cell support system, i.e., an apparatus.

Group II, consisting of claim 17, drawn to a three dimensional cellular tissue, i.e., a product/composition.

Group III, consisting of claim 18, drawn to a method to produce a three dimensional cellular tissue.

Group IV, consisting of claim 19, drawn to a bioreactor, i.e., another apparatus.

6. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of the inventions of groups I and IV is an apparatus, whereas technical features of inventions in Groups II and III each are a composition comprising the three dimensional cellular tissue and a process to make a three dimensional tissue. None of the inventions in Groups II-III share the same or similar technical feature of invention in Groups I-IV, an apparatus. Since no special technical feature exists among the materials of groups I-IV and II-III, there is no unity of invention.

7. Applicants are advised that a reply to this requirement must include an identification of an invention elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicants will be entitled to consideration of additional claims which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR §1.141. Currently, Claim 10 is generic. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

8. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR §1.48(b). Any amendment of inventorship must be accompanied by a petition under 37 CFR §1.48(b) and by the fee required under 37 CFR §1.17(I).
